# Ring Mesh Curtain

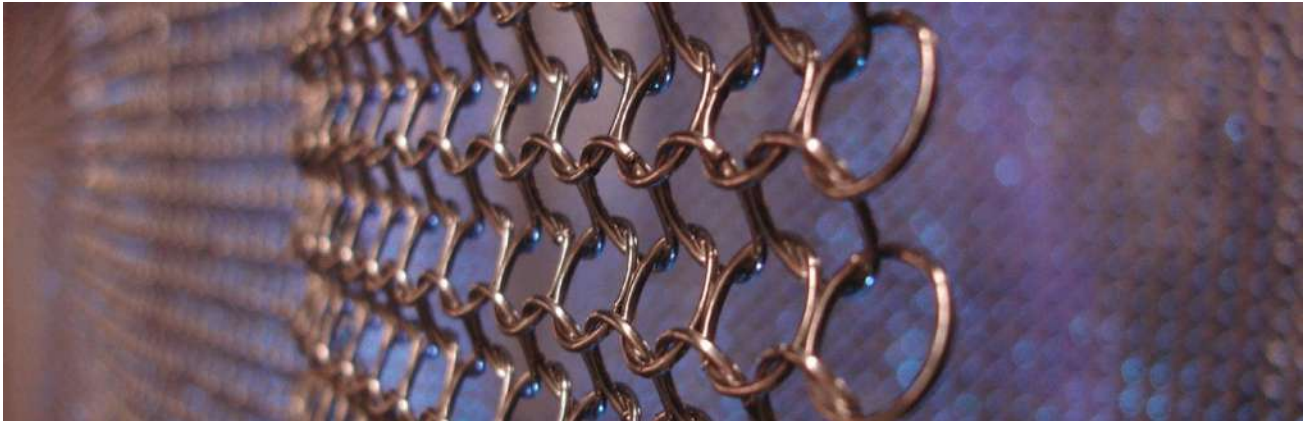

**Ring mesh curtain** is also called the chain mail curtain, is an emerging type of architectural decorative curtain, which is made from the metal material, so it is stable and solid, it could resist harsh environment such as storm, hit, etc, besides, it is easy to maintain. Ring mesh curtains consist of linked metal rings together. Compared with individually-welded rings, the linked pattern has supple and free-flowing sheets. These features make the curtain easy to pass through. From the viewpoint, the ring mesh curtain has the characteristics of the fabric, it shows a pretty view.

## Feature:

1. Fireproof: Its melting point is far higher than that of the cloth curtain.
2. Stable: No shrinks or stretches when used.
3. Mildewproof: It is unaffected by dampness and humidity.
4. Sun rot-proof: No matter how strong sunshine is, metal ring curtains will not be affected.
5. Light-diffusing: Metal Mesh Drapes have exceptional light filtration properties. The light filtration is controlled by curtain fullness and light conditions.
6. Permanent: Despite the initial cost, Metal Mesh Drapes, unique maintenance, and longevity properties prove it more economical over the life of the installation.
7. Maintenance Free: Metal Mesh Drapes tend to shed dust. Occasional brushing or dusting will suffice. Stains wash off with mild soap and water.
8. Air Conductive: While effectively concealing heat and air conditioning outlets, Metal Mesh Drapes permit the relatively free circulation of warm and cool air currents.
9. Malleable: Metal Mesh Drapes can be hung in strips, panels or joined to create a metal fabric with superb draping characteristics.

## Hanging methods:

The Ring Mesh is usually fixed with an stainless steel or aluminum alloy frame. Around the ring mesh, we can fix the " S " type connect piece with one round wire, which wire is welded on the frames. and then install the frame on windows or isolation wall with screw or others.
